

MATERIAL SAFETY DATA SHEET

EXELIES RED'EX

1. CHEMICAL PRODUCT IDENTIFICATION AND COMPANY IDENTIFICATION

Product: EXELIES RED'EX

Application: For oenological use.

Supplier: **Burgundia Cœnologie**

ZAC Portes de Beaune – 29, rue Buffon - 21200 BEAUNE _ France

Tel: 03.80.22.43.21

Mail: laboratoire@burgundia.fr

Emergency phone: Contact your local doctor or hospital.

2. COMPOSITION / INFORMATIONS ON INGREDIENTS

Characterization of the preparation: Yeast product (proteins, carbohydrates, mineral matters, lipids).

3. HAZARD IDENTIFICATION

Natural product, non-dangerous according to the criteria of the European standard relating to the classification of dangerous substances (Annex I of Directive 67/548/EEC.)

4. FIRST AID MEASURES

In case of skin contact: Wash immediately with soap and water. If irritation persists, seek consult a doctor.

In case of eyes contact: Rinse immediately with water for 15 minutes holding the eyelid open. If irritation persists, consult an ophthalmologist.

5. FIRE FIGHTING MEASURES

Non-flammable product.

Protection against fire and explosion: Wear suitable protective suit.

Suitable extinguishing media: water spray, foam, CO₂, powder.

Extinguishing media to be avoided: Do not use a water jet.

Special hazards: Possible release of toxic fumes - carbon oxides.

Environmental protection: Water used for extinguishing fires, contaminated by the product must be disposed of in accordance with the legal standards in force.

6. ACCIDENTAL RELEASE MEASURES

Dispose of the preparation immediately. Pick up the product by mechanical means. Dilute the remaining product abundantly with water. Provide sufficient ventilation. Wash soiled clothes. Avoid discharging directly to the sewer (organic pollution).

7. HANDLING AND STORAGE

Handling: Avoid excessive dust formation. Do not eat, drink or smoke while working. Wash hands after handling.

Storage: Store in its original, closed packaging. Store in a room where the temperature will not exceed 20 ° C. Do not store together with products that can alter the odor.

8. EXPOSURE CONTROL/ PERSONAL PROTECTION

No particular step to be taken.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Powder.

Breakdown temperature: > 100°C

Danger of explosion: None.

The others physical and chemical parameters are not relevant for the safety. For more information, refer to the Technical Product sheet.

10. STABILITY AND REACTIVITY

The product is stable in normal conditions of storage and use.

Conditions to be avoided: As regard security, none.

Matters to be avoided: None.

Hazardous breakdown products: None.

11. TOXICOLOGICAL INFORMATION

The preparation is therefore classified as "non-toxic".

Inhalation of enzyme dust or aerosol resulting from improper handling may cause sensitization or allergic-type reactions in sensitized individuals. Prolonged contact with the skin may cause slight irritation.

12. ECOLOGICAL INFORMATION

Totally biodegradable product. No know effect on the environment.

13. DISPOSAL CONSIDERATIONS

No special disposal method required, except that in accordance with current local authority regulations.

14. TRANSPORTATION INFORMATION

Product not concerned by the regulations of hazardous substances transport.

15. REGULATORY INFORMATION

Product not concerned by the regulations of hazardous substances labelling.

16. OTHER INFORMATION

The information contained in this safety data sheet is considered, at the date of publication, to be true and correct. However, the precision and the exhaustiveness of this information, as well as all the recommendations and suggestions are given without guarantees. As the conditions of use are beyond the control of our company, it is up to the user to determine the conditions of the safest use of this preparation.

"We educate users about the risks involved when a product is used for purposes other than those for which it was designed. The user must know and apply all the regulations governing his activity. "
