8 – EXPOSURE CONTROL/PERSONAL PROTECTION

Respiratory tracks protection: Wear a breathing mask. Product contains the residual monomer 1 vinyl-2 pyoledane (traces)

Eye protection: Wear goggles.

Hand protection: Wear gloves.

9 – PHYSICAL AND CHEMICAL PROPERTIES

Appearance: White powder

pH (solution at 10%): about 7

The others physical and chemical parameters are not relevant for the safety. For more information, refer to the Technical Product Datasheet.

10 – STABILITY AND REACTIVITY

Not a hazardous product if used under normal conditions of storage and use.

11 – TOXICOLOGICAL INFORMATION

Completely harmless.

12 – ECOLOGICAL INFORMATION

Biodegradable at 90% product.

13 – DISPOSAL CONSIDERATIONS

Product: Collect or vacuum the product as best as possible. Dispose of in accordance with applicable regulations.

Contaminated packaging: Open packages and empty contents completely. Dispose of according to packaging material.

14 – TRANSPORTATION INFORMATION

Product not concerned by the regulation of hazardous substances transport.

15 – REGULATORY INFORMATION

Product not concerned by the regulation of hazardous substances labelling.

16 – OTHER INFORMATION

The information contained in this safety data sheet is considered, at the date of publication, to be true and correct. However, the precision and the exhaustiveness of this information, as well as all the recommendations and suggestions are given without guarantees. As the conditions of use are beyond the control of our company, it is up to the user to determine the conditions of the safest use of this preparation.

"We educate users about the risks involved when a product is used for purposes other than those for which it was designed. The user must know and apply all the regulations governing his activity. "
